- Medicare and most insurance accepted

To Our Dear Patients,

After a good deal of thought, I have decided to close my Tampa office practice as of August 11, 2023.

My career has transitioned into nearly daily work in both heart and lung transplantation. This schedule and responsibility has prevented me from devoting the time that is necessary to provide high quality and conscientious office based patient care.

It has been a tremendous honor to evaluate and treat you. Although an office practice was a radical change for me back in late 2010, I enjoyed office based medicine and especially meeting so many interesting patients.

After August 11, 2023, patient records will be available via email or phone request:

[dana@tampaveinspecialists.com](mailto:dana@tampaveinspecialists.com) or on a recorded line 813-374-9002.

I'm pleased to refer you to Edward G. Mackay and Associates LLC. I am confident they will deliver to you the quality of healthcare you deserve. I have known Ed for 30 years and he is an excellent doctor and vascular surgeon. Dr. Mackay is a highly regarded national expert in the treatment of varicose veins and venous diseases. He has been treating patients in Tampa Bay since 1993.

We appreciate the opportunity you have given us to serve as your healthcare providers.

Sincerely,  
Gary Dworkin, MD
